Professional Experience

QSpiders

Gurugram, India

Java Full Stack Developer Intern

Jan 2026 – Present

- Developing full-stack web applications using **Core Java, Spring Boot, Hibernate, MySQL, HTML, CSS, JavaScript, and React**.
- Building backend services and REST APIs using **Java and Spring Boot**, with Hibernate and MySQL for data persistence and management.
- Developing responsive frontend interfaces using **HTML, CSS, JavaScript, and React** and integrating them with backend services.

Projects

Smart Campus Crowd Intelligence System

Full-Stack Web Application

Deployed

- Developed and deployed a **full-stack campus crowd intelligence platform** that provides location-wise crowd levels across multiple campus areas using time- and location-based data generation logic.
- Designed the data pipeline to support real crowd data sources, while using controlled simulated data generated through **time- and location-based logic** for the current implementation.
- Built backend services and REST APIs using **Java, Spring Boot, and Hibernate**, with **MySQL** for persistent data storage and management.
- Developed an interactive frontend using **React, JavaScript, HTML, and CSS** to visualize crowd levels across different campus locations.
- Deployed the application using **Vercel, Railway, and Render**, with **Git and GitHub** for version control and project management.

Technical Skills

Languages: Core Java, JavaScript

Data Structures & Algorithms: DSA, Problem Solving

Frontend: HTML, CSS, JavaScript, React

Backend: Java, Spring Boot, Hibernate

Database: MySQL

Tools & Deployment: Git, GitHub, Railway, Render, Vercel

Certifications

Oracle: Agentic AI Certified Foundations Associate

[View Credential](#)

Google Cloud: Develop GenAI Apps with Gemini and Streamlit

[View Credential](#)

Google Cloud: Prompt Design in Vertex AI

[View Credential](#)

Google Cloud: Build Serverless Applications with Cloud Run Functions

[View Credential](#)

Google Cloud: Deploy and Secure Serverless APIs with API Gateway
